Administration of the Employee Handbook	35

Welcome

We set out to make a great virtual studio, but we knew back then we had to first create a place that was designed to foster that greatness.

This book is an abbreviated encapsulation of our guiding principles. Here you will find essential information about 57Blocks Human Resources policies and certain other company policies that will be valuable to you as you begin or continue your career with us. As an employee, it is important and your responsibility to be informed about the policies that affect you

This content applies to all 57blocks employees. An employee handbook is not a contract of employment nor can it offer an answer for every situation.

The handbook is a key resource for outlining employee policies, all employees must understand how to access it and understand its application to their employment with a 57blocks company.

The handbook exists online on WCP. Policies change from time to time, and the online content will be updated as needed. Within the content is a published reference date. That date refers to the last date on which that particular policy was updated.

Remember, every employee contributes to the culture of 57blocks; with the words we use, the actions we take, the way we treat each other, and how we treat our customers, both internal and external. We will build a strong culture together by meeting company wide expectations that align with "Our Values". These clear and common expectations ensure that everyone understands and lives the 57blocks culture in our interactions with each other, our communities and our customers.

Our Values

Reliable: We always deliver what we promise

Responsive: We are available

Flexible: Plans always change, we do not hold our clients to rigid plans

High Quality: We build quality into our talent, product, design and engineering processes

Company Establishment Date
